TO DO LIST FOR TEMPLATE DAY

With your template day approaching we like to pass on a prep list of things to be done before our arrival. Please ensure each item is completed as failure to do so may result in us having to reschedule your template appointment to a later date, which will in turn delay your install date.

- 1) Make sure cabinets are level and fully installed by the time we arrive.
- 2) All cooktops, stove and sinks (if not specs or templates will work) must be on site for us.
- 3) Please ensure all small appliances have been removed from countertops ie coffee pots, toasters etc.
- 4) Homeowner must be present for the entire length of the appointment (allow for up to 1 ½ hrs) so any questions and concerns can be addressed.

TO DO LIST FOR INSTALL DAY

- 1) All countertops, backsplash and tile have been removed, unless otherwise previously agreed upon with Expressive Granite.
- 2) All plumbing and gas lines (if need be) have been disconnected / shut off. This is not a service we provide as we are not licensed to do so. We can provide recommendations for a plumber if you do not have one. Please schedule them to come back 24 hours after the countertop install has been completed as the silicone requires this full length of time to cure properly.
- 3) Please have sink cabinets empty as we need clear access to install the sink.
- 4) Please make sure we have a clear accessible path to where we are installing the countertops
- 5) Please leave the heavy lifting to us. Although we appreciate the offers to help, we must respectfully decline due to safety reasons.
